Back issue. The Denman Firestarter did not exist on 2019-09-26. This edition was compiled on 2026-10-01 from the public record as it stood on 2019-09-26, and contains nothing dated after that day — no outcomes, no hindsight. It is a reconstruction of what was on the record at the time, not a document from the time.

## Denman climate action committee gets approval

*A well-attended DIRA meeting on Sept. 9 approved forming a Climate Action Committee, and a Sept. 18 lecture launched a community climate-action effort.*

THE DENMAN FIRESTARTER

The Denman Island Residents Association approved forming a Climate Action Committee at a well-attended meeting on Sept. 9, according to a report in this week’s Grapevine. The report said a lecture by eco-futurist Guy Dauncey at the Denman Community Hall on Sept. 18 was the kickoff for an effort to involve the whole community.<sup>1</sup>

Dauncey proposed that Denman could demonstrate a move to what he called a new eco-civilization, and urged residents to commit to climate- and nature-friendly actions. The report said a sign-up sheet listed suggested actions for homes, businesses, forests, farms and gardens, shopping, waste and community engagement.<sup>1</sup>

The Grapevine reported Dauncey’s goal was for Denman to become the first community in the world to be 100% climate- and nature-friendly by 2025. That is a goal he proposed, not a completed result.<sup>1</sup>
