

THE DENMAN FIRESTARTER

Back issue, The Denman Firestarter did not exist on 2021-11-25. This edition was compiled on 2026-10-01 from the public record as it stood on 2021-11-25, and contains nothing dated after that day — no outcomes, no hindsight. It is a reconstruction of what was on the record at the time, not a document from the time.

Denman letters split over proposed fibre-optic service

Letters in the November 25 Grapevine urge opposing votes on the November 27 referendum about fibre-optic service for Denman and Hornby.

REPORT — FACTS AND CITATIONS ONLY

THE DENMAN FIRESTARTER

Letters published in the November 25 Islands Grapevine take opposing positions on the November 27 referendum on a proposed fibre-optic project for Denman and Hornby islands. One letter urges a yes vote, citing the proposed service’s reliability and cost; another writer also supports the project, arguing fibre could reduce the need for further cell-tower development.¹ The November 2 Denman Local Trust Committee minutes record Electoral Area Director Daniel Arbour reporting that the referendum on bringing fibre-optic service to the islands was scheduled for November 27.² The letters are arguments by their writers, not findings about the project’s costs, performance or environmental effects. The minutes record the referendum date but do not assess those claims.¹²
