

The Denman Firestarter

Back issue. The Denman Firestarter did not exist on 2022-03-24. This edition was compiled on 2026-10-01 from the public record as it stood on 2022-03-24, and contains nothing dated after that day — no outcomes, no hindsight. It is a reconstruction of what was on the record at the time, not a document from the time.

Denman farming questionnaire seeks residents’ feedback

A questionnaire on the island’s farming regulations is open for public feedback until April 15.

REPORT — FACTS AND CITATIONS ONLY

THE DENMAN FIRESTARTER

The Denman Island Local Trust Committee is seeking public feedback through a questionnaire for its Farming Regulations Review Project, with responses accepted until April 15, 2022.¹

The questionnaire asks about farming regulations, and the committee’s February minutes say the project concerns the regulation of agri-food and commercial food production by farming.²

At its February 15 meeting, the committee generally endorsed the questionnaire, subject to changes discussed at the meeting, and approved up to \$2,000 from the project budget for advertising and direct mail.²

The March 22 meeting minutes record residents’ concerns that the project’s framing did not address topics including climate change, water conservation, regenerative agriculture, local food and subsistence agriculture.¹
