

THE DENMAN FIRESTARTER

Back issue. The Denman Firestarter did not exist on 2022-06-09. This edition was compiled on 2026-10-01 from the public record as it stood on 2022-06-09, and contains nothing dated after that day — no outcomes, no hindsight. It is a reconstruction of what was on the record at the time, not a document from the time.

Denman Green proposal draws housing questions at public meetings

The Denman Housing Association’s proposed 20-unit project was discussed at a community information meeting and public hearing.

REPORT — FACTS AND CITATIONS ONLY

THE DENMAN FIRESTARTER

The Denman Housing Association’s Denman Green proposal was the subject of a community information meeting at the Community Hall on May 30, followed by a public hearing. The May 31 Local Trust Committee minutes record that the hearing took place, but the supplied excerpt does not include its proceedings.¹²

At the information meeting, the Islands Trust planner outlined proposed changes to the Official Community Plan and Land Use

Bylaw, including a new affordable-housing zone and density changes for parcels on Woodham and Danes roads. The proposal included 20 rental units for qualified occupants at affordable rates, with annual reporting to the Islands Trust.¹

Questions at the meeting covered water use, the proposed well, tenant selection and the mix of rents. The minutes say the project planned low-flow fixtures and greywater reuse for toilet flushing;

they also say housing funders would determine affordability, and market rentals were needed to help subsidize more affordable units.¹

At the May 31 regular meeting, townhall comments urged the Islands Trust to explore ways to increase affordable housing and legal rental options, including through existing buildings.²
